CANADIAN CHAMPIONS ARE BANQUETTED

The members of the Blaimore Senior First Aid team were guests to a banquet given in their honor at the Tea Kettle Inn on Monday night, when the Coderre Cup, emblematic of the Canadian championship, was officially presented to the captain, Mr. M. H. Congdon, through Mr. G. A. Vissac, general manager of the West Canadian Collieries, Limited.

About eighty persons sat to a sumptuous chicken dinner at 7.30 p.m., following which the chair was taken by Mr. Moses Johnson, mines inspector. In his opening remarks, Mr. Johnson referred briefly to the history of the Coderre cup and the purpose it was intended to serve. The cup was the gift of Hon. Mr. Coderre, at the time he was federal minister of mines, with a view to furthering interest in first aid work. It was open for annual competition by teams from all Canada, under the auspices of St. John Ambulance Association, and has been won three times by teams within the Rocky Mountains mining district, namely: Canmore, Coleman and Blaimore. Mr. Johnson himself had spent considerable time with the Blaimore team in the capacity of coach, and much credit is due him for the success attained by the team.

In making the presentation, Mr. Vissac stated it was a pleasure on the part of his company to support the first aid and mine rescue work. He felt it should be the duty of all industries in Canada to foster first aid, as it was of the most vital importance. It gave him very great pleasure to present the Coderre Cup to the Blaimore championship team with the hope that next year, if the cup did not remain in Blaimore, it would at least land in Bellevue. Mr. Congdon, in accepting the cup, expressed appreciation of the valuable assistance rendered at all times by the West Canadian Collieries, Limited, and Mr. Johnson. Four individual cups accompanied the major trophy. In addition, on behalf of the West Canadian Collieries, Limited, Mr. Vissac presented Messrs. M. H. Congdon and John McAndrew with fishing rods complete, Mr. A. Hnatyshyn with a club bag, and Mr. Harvey Carmichael with a rifle, expressing the hope that the team would stay with the good work and that others teams would be formed in the district to make keener competition in the future.

Suitable replies were made by the recipients.

Beautiful tenor and baritone solos and duets were rendered by Messrs. Hadwell and Phillips, of Bellevue and Coleman, respectively, and following addresses by P. M. Christophers, M. P., Mayor Farmer and W. J. Bartlett, cornet and saxophone solos by Messrs. Goodwin, of Bellevue, accompanied at the piano by Miss E. McDonald, were loudly applauded.

The programme closed with the singing of "They are jolly good fellows."

NEW TELEPHONE

OFFICE OPENED

The new telephone exchange building was officially opened here on Thursday of last week and the Crown's Nest Pass is now assured of the best service possible from the telephone department. The new building is very attractive and the interior equipment is of the very best available.

Two other centres in Alberta have been given new exchange buildings of similar appointments and equipment, namely, Claresholm and High River.

The Blaimore station serves 450 subscribers in the district from Coleman to Burnis. Two hundred and twelve of these are in Blaimore and 115 at Coleman.

LITTLE BLAIRMORE LAD DIES VERY SUDDENLY

The entire community this week joins in sympathy with Mr. and Mrs. E. Elliott in the loss of their only boy, Willie, who died on Tuesday evening at 8.30.

Willie had only been ill about four days, and the trouble has been diagnosed by the attending physicians as infantile paralysis. He was but a few hours short of eleven years of age at the time of his death. Of all the children of the town he was believed to have been the favorite. Being of a pleasant and lovable disposition, he was endeared by all who knew him.

Funeral took place this afternoon, the remains being laid to rest in the Protestant cemetery, Rev. J. W. Smith officiating.

MRS. MORGAN LAID TO REST

The remains of the late Mrs. Joseph Morgan, of Lundbreck, were laid to rest at Pincher Creek on Saturday afternoon last, the funeral being very largely attended.

The funeral service was held in St. John's church, Rev. Neville Blunt officiating.

Full bearers were, James Gerry, Clement White, James Bennett, J. Walters, C. Madden and H. Rogers. The deceased lady had resided in the Lundbreck district since 1888.

TO THE PUBLIC

Owing to a case of Infantile Paralysis having developed within the town, it is of the greatest importance that as far as possible children be prevented from congregating. Already a temporary ban has been placed against children under 14 attending the theatre, and in all likelihood Sunday schools and other institutions in which children are in the habit of gathering will be dispensed with for a few days, at least.

WOODS—PHILLIPS

The marriage of Miss "Gordie" Phillips to Mr. Roy Woods took place on Saturday night last. Both are reported doing well.

SUCCESSFUL MUSIC STUDENTS

The mid-summer examinations of the Toronto Conservatory of Music held at Coleman on July 10th, were doubly satisfying. They served their intended purpose by revealing the splendid progress that is being made by the students, and also by retaining the 100 per cent pass that has been made in previous examinations. One could not fail to recognize the spirit of earnest endeavor that characterized the finished work of these young artists, and much credit is due to them and also their teacher, Mr. W. J. Harris, of Coleman. The array of talent was quite impressive, the work of the violinists as usual dominating the scene, and the unstinting praise accorded these young artists was but a fitting recognition of the work accomplished in the last year. Mrs. Curry, of Bellevue, proved an able accompanist.

Following are the successful students: Pass with first-class honors, F. G. Harris, Maycroft. Pass with honors, H. Parsons, Michel; E. Borovec, Bellevue; T. Andriele, Natal, and W. Bobbitt, T. Hill, J. Petrosko, E. Salvador and M. Allen, all of Coleman. Pass, F. Penn, Lundbreck; J. Kerr, Passburg; J. Beswick, M. James and J. Qualtieri, Michel; M. Malanchuk, Mrs. R. Vincent, O. Belevich, B. Gentile, P. Shone, G. Jackson, L. Johnston, R. Pattinson, W. Phillips and W. Ukrainetz, all of Coleman.

An exchange remarks: Etiquette books tell us what is bad form; but then again, so do short skirts.

The average hubby nowadays is so overjoyed when wife goes away on vacation that he feels like getting real drunk.

The more you put into some buildings the better they appear. Of course, it's different with a penitentiary.

Why is Red Rose Tea so fresh and flavory? The answer is that it is a blend of the choicest, juiciest leaves, picked when only ten days old—and sold by your grocer in clean, bright aluminum. No tea can be expected to combine freshness and strength unless packed in this modern metal container—the only package worthy of Red Rose quality.

CHAPTER XXX.—Continued

Only desperate men would ever have dreamed of such a plan as this. The camp was fenced with eight strands of barbed wire, and every sixth fence-post carried an ear light. But with the aid of a file which one of the men possessed, they would cut the two lower strands, at dusk, just before the lamps were lighted, and crawl through. At the last moment the other two men grew panicky. "It is sure death," said one; "they'll catch us. I can see how they are watching us. I'd go, and take a chance only I have a wife and kid—I've got to think of them."

The other man declared the plan a foolish one on account of the weather. "January in Germany is too much like the corner of Portage and Main," he said.

A new batch of prisoners had come in that day, and one of them, who was standing near enough to hear, came to Jack and asked if he might go. He was a grizzled man of about thirty-five.

"I have no one depending on me," he said, "and I have already tried twice."

"Come along—sure," said Jack, "three times and out."

"Thank you so much," said the man heartily.

Jack was startled by his politeness. A prison camp does not always foster the social amenities.

"Your name is Doran, is it not?" asked his new friend.

"Mine is English—at least that is my nickname. We are both from Canada. . . . We might as well try

What Will you do

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million houses are never without it. If there are children in your family, there's almost daily need of its comfort. And any night, may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhoea checked. A vegetable product, a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful or restless, Castoria was never more popular with mothers than it is today. Every druggist has it.

bodily into a garden as they came through a village. He had a way of quieting the dogs by a peculiar whistle and this gave him a distinct advantage. The dogs who came out barking fiercely, changed their attitude when he spoke to them, and even showed a disposition to follow him.

"If the dogs could bring us food we would have plenty," he said that day, as they sat in the spruce thickets. "The chances are against us, Jack, but one of us may get over."

"One of us?" exclaimed Jack, "It must be both or none!"

"No!" said the other, "it does not matter much about me. No one cares so very much, and it happens that the one person who cares a little bit about me, cares very much about you."

Jack looked at his companion—dishevelled, dirty, long-haired and long-whiskered, his eyes bloodshot—and wondered if his mind were going. "And who is that?" he asked gently, as if he would humor his poor friend's mood.

"Your wife, Helmi,"

"Helmi!" Jack repeated, "My Helmi!"

"Yes, yours—she is the only woman except my mother who ever cared whether I lived or died."

Then he told Jack of his quarrel with Larsen in Eagle Mines, and of Helmi's kindness, and of the week he had stayed in her house.

"She asked me to pray for you, Jack," he concluded, "and I kissed her golden hair. She told me she was sure you would go to the war, and asked me if I met you would I be your friend. That is why I came—I seemed as if I must come—when I found you at Vehmoo!"

Jack's voice trembled as he spoke. "Then you are Arthur Warner, and I have been doing you wrong in my thoughts. No one told me you were hurt—they only gave me half the story. When I got back I found Helmi gone—gone without a word. She had been gone a week—I was a month late—but she might have waited."

"The trees were throwing long, cold shadows over the sweeping current of the river."

"Did you not know there was a good reason for her going?" Arthur asked, after a pause.

"I knew nothing," said Jack. "What reason could there be?"

"She went to the city to a hospital to give birth to your child."

Jack's face grew white with pain. "How do you know?" he whispered.

"She told me. I wanted her to come to England and train as a nurse, and when I urged her, she showed me a little dress she had been making, and told me, and she told me she was glad. Her only regret was that you were away and the adventure you were on was dangerous."

"I did not know," Jack groaned.

There was silence then, when neither man could speak.

Sir George Wills' Estate

The tobacco magnate, Sir George Alfred Wills, who died July 11, left a fortune of \$50,000,000. The bulk of the estate goes to his children, but at least twenty millions will go to the government in the shape of a levy on inheritance. Sir George was the tenth of his family to leave an estate exceeding a million pounds.

THE SIX YEAR MOLAR

You have heard your dentist call this first double tooth the "six year molar."

Why is this? You have perhaps guessed it—that it is because it erupts usually at about the six years of age.

Now, you have been observant enough to note that it is a first tooth in the sense that no tooth was lost to make room for it.

And coming in at this early age, you may have thought it a "baby tooth" which would, in due time, be shed.

So, in your child, you have perhaps neglected to give it the care that it deserved—with disastrous results.

Without doubt, this neglect is the most common of dental sins committed by parents, and perhaps with gravest consequences to their children.

Because, should this tooth become so badly decayed within from four to six years following its eruption as to infect the "pulp," your dentist as a rule, has no recourse but the use of the forceps—and, losing the tooth, the whole series is deranged, since, in real sense, this six year molar is the key tooth of the dental arch.

However, Nature is gracious, for sometimes you will find that where this tooth has been lost at an early age, the second molar has "drifted" forward to the space and the third molar advancing in turn as it erupts. But this is only rarely the case, and it is the dentist's proper plan to prevent this trouble rather than to rely on Nature for a cure.

Shipments, Already 50,000 Pounds Over That of Last Year

With the shipment of 12 carloads of domestic wool from Regina, recently, the Canadian Co-operative Wool Growers' Association is already 50,000 pounds over last year in its shipments from Saskatchewan and Alberta, according to W. W. Thompson, manager, at Regina.

Mr. Thompson said two more carloads would complete the season's work, and he anticipated that in the next two months the 1926 shipments would show a total increase of about 100,000 pounds over those of 1927. A substantial increase also had been shown in the range wool shipped from Maple-Creek.

The Many-Purpose Oil.—Both in the house and stable, there are scores of uses for Dr. Thomas' Electric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chest. Horses are liable very largely to similar ailments and mishaps as afflict mankind, and are equally amenable to the healing influence of this fine oil, remedy which has made thousands of firm friends during the past fifty years.

Granted Temporary Parole

Two Negroes Sentenced To Death May Escape Penalty

Governor Graves, of Birmingham, Ala., granted a temporary parole of 60 days to two negroes convicted of murdering a negro who later returned to her home after several months' absence on a visit to relatives. The two men were charged with chopping the woman's body in pieces and throwing them into the Alabama River. The parole was granted pending an official investigation.

MANY MOTHERS RECOMMEND THEM

Baby's Own Tablets Are Fine For Nervous, Sleepless Children

From Canada the fame of Baby's Own Tablets is spreading over the world. Mothers recommend them to other mothers and wherever they are tried nothing but words of praise are heard for these pleasant tasting little tablets that promptly relieve the minor ailments of young children. "Baby's Own Tablets are one of the best remedies for children's ailments I have ever used," says Mrs. Arthur T. Allen, of Auburn, Me. "My little girl was nervous and could not sleep. I tried the Tablets and she was relieved at once. She was also troubled with constipation and nothing seemed to help her. I had used the Tablets but a short time before her bowels were regular. All mothers should keep Baby's Own Tablets in the house, for they are a valuable remedy."

Baby's Own Tablets are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

"And now wish me not the bright light which is in the clouds; but the wind passeth, and cleanseth them.—Job xxxvii. 21.

His purposes will ripen fast, Unfolding every hour; The bud may have a bitter taste, But sweet will be the flower. Blind unbelief is sure to err, And scan his work in vain; God is His own interpreter, And He will make it plain. —William Cowper.

There is nothing in what has been fallen or befalls you which justifies impatience or peevishness. God is inscrutable, but not wrong. Remember if the cloud is over you that there is a bright light always on the other side; also, that the time is coming, either in this world or the next, when that cloud will be swept away, and the fulness of God's light and wisdom poured around you. If your life is dark, then walk by faith; and God is pledged to keep you as safe as if you could understand everything. —Horace Bushnell.

Homes For French Poor

Paris is preparing to turn land-lord on a large scale. Construction of modern apartments, on the site of one-time fortifications, is now under way. Officials estimate that 10,000 Parisian families will be housed in the new buildings at a cost of about \$160 a year, for four rooms and bath.

THE ROAD HOG

The average car driver does not understand the psychology of the average road hog. Whether it is a natural contempt for the other fellow, a fear of the road, or a desire to smash up his own car in order to collect insurance, has never been made clear. He certainly has no respect for the rules of the road or the other man's rights. He is either drunk or thinks he is the only guy in the world.

It is alright for a man to take certain risks with his own life and property if he feels that way, but he has no right to juggle with that of others. But he is there and must be reckoned with as well as met head-on at the corners if you have not the presence of mind to dodge him.

The road hog is in a class by himself and seems to take a certain savage joy in running risks and frightening others. He is a very elusive chap to capture, however; for, unless you are prepared to look mud-guards with him at the corners at the risk of your life, he is gone to meet the next man before you can get his number.

The road hog when found should be dealt with severely. He not only endangers life and property and does damage, but he gives a bad reputation to drivers generally.—Ex.

INTER CLUB TENNIS
TOURNAMENT

In the first tournament between Coleman and Blairmore to decide the winner of the eastern section of the Crow's Nest Lawn Tennis Association, played at Coleman on Sunday, August 12th, the Blairmore club took the losing end. Coleman players took five out of the nine matches played, sufficient to win this tournament. A return match will be played at Blairmore on Sunday, August 19, and the winner will meet the winner between Kimberley and Cranbrook for the shield.

The results of last Sunday's matches are as follows:

Men's singles—A. Hnatyshyn lost to L. Lindoe, 8-6, 12-10; Sgt. Jones won from R. Barnes, 8-6, 6-4; R. Pinkney lost to J. Kwaney, 6-8, 6-3, 6-3.

Men's doubles—Hnatyshyn and Pinkney lost to Kwaney and Lindoe, 6-6, 6-1, 6-4; Sgt. Jones and A. Penman lost to McLeod and Barnes, 6-2, 4-6, 6-4.

Ladies' singles—Mrs. J. A. Kerr won from E. Greenhalgh, 6-1, 6-2. Ladies' doubles—Mrs. Kerr and Mrs. Jones won from D. Burns and E. Greenhalgh, 4-1, 6-0.

Mixed doubles—Mrs. Kerr and A. Hnatyshyn won from D. Burns and L. Lindoe, 6-2, 6-1; Mr. and Mrs. Jones lost to Mrs. Graham and R. Barnes, 7-5, 6-1.

A local gentleman of Scotch ways was seen sweeping the platform at the railway depot at an early hour on Wednesday morning, and later started for home with his wheelbarrow. A newly married couple had been showered with rice and lima beans the night previous.

John T. Watson, superintendent of the East Kootenay Power Co's plant at Sentinel, has accepted the position of city manager at Lethbridge at a salary of \$4800 a year.

KEEP DOWN THE DUST

The town of High River is experimenting with a preparation called Downfakes, to keep down dust on the streets. It is thus described by the High River Times: It is of calcium chloride, in the form of whitish flakes, rather like oyster shells. About 600 pounds were scattered along Railway Street, using about a pound to a square yard. When sprinkled on the road it absorbs the moisture from the air, making a coating and keeping down the dust. Three applications only would be necessary for the season, and rain does not affect it. This preparation is used very extensively in Eastern Canada and in Manitoba. As it is manufactured in the Eastern States, it is somewhat expensive, however, for use in Alberta.

In the course of Mr. Christopher's address at the banquet on Monday, he expressed the hope that some day the provincial government would see their way clear to support financially first aid work, so that every industry in the province could have a fully equipped team ready at all times for emergency. The work today is entirely along voluntary lines and those who have taken up the work are doing so in the interest of their fellow workers without receiving recompense for their time and labor. As stated by Mr. Johnson, one of the qualifications necessary to the teaching profession in Newfoundland is that every teacher must have first-hand knowledge of first aid, and it would be a splendid idea if similar qualification could be attached to the teaching fraternity of Alberta, or all of Canada.

SPECIAL MEETING OF COUNCIL

A special meeting of the Blairmore town council was held on Monday night for the purpose of considering applications for the position of town police and works foreman. No less than twenty-four applications were read to the meeting, including eight from Lethbridge, four from Calgary, four from Coleman, one from Raymond, one from Three Hills, one from Granum and five from Blairmore, the latter including the names of William Patterson and Evan Morgan, councillors, whose resignations accompanied their applications.

Owing to the unavoidable absence of three members of the council, the matter of making a choice was left over to the regular meeting on Monday night next.

CARD OF THANKS

The relatives of the late Mrs. Joseph Morgan desire to thank the many friends for varied kindnesses shown during her illness and for expressions of sympathy in their bereavement.

Floral tributes included the following: Wreaths—Mr. and Mrs. A. M. Denmore, Mr. and Mrs. R. J. Day and family, Women's Institute of Fincher Creek, Mr. and Mrs. George Morgan, Coleman; Mr. and Mrs. W. E. Bush and family, Creston; Mr. and Mrs. Evan Morgan and family, Blairmore; Mr. and Mrs. Dan Rhodes, Mrs. E. Madden and family, Mr. and Mrs. M. Hamilton, Blairmore; Friend "Fanny" M. Doyle, Sprays—Mr. and Mrs. Picard and family, Blairmore; Mr. and Mrs. Harry Coulton, Coleman; Mr. and Mrs. Fred Antrobous and Freda, Coleman; Mr. and Mrs. James Bennett, Mr. and Mrs. James Smyth, T. C. Buchanan-White and James Gerry, Cowley Women's Institute, and Mr. and Mrs. J. Angus McDonald, Blairmore.

H. C. Sweet, of Lethbridge, has been appointed school inspector.

A. B. Steeves has his foot dislocated by a kick from a big fish up the Elk on Sunday last. A. B. hoped to retaliate, but the darned thing ran.

JOHN F. MILLER, sight specialist, of 404 Underwood block, Calgary, will be at Blairmore Pharmacy on Tuesday, August 21. Now is the time to have your eyes correctly cared for.

COWLEY HAPPENINGS

Mr. Archie Swart was a Tuesday visitor to Waterton Park.

Mrs. Swart and children have returned from a holiday trip to Lethbridge.

Mrs. McLachlan, of Calgary, is paying a visit with old friends in the district.

Mrs. F. C. Alcock, of Champion, was a guest of Mrs. Murphy for a couple of days the latter part of the week.

Miss Mildred Easterbrook, who is a nurse-in-training in the general hospital at Calgary, is home for her holidays.

Mr. and Mrs. Cowin and son Jack motored to Vauxhall on Saturday, where they will visit relatives for a fortnight.

Many friends here of Mrs. Joseph Morgan were shocked to hear of her death. Mrs. Morgan had been a resident of this district for about thirty years or more. Her cheerful disposition had made for her a host of friends, who will greatly miss her.

The conference of the Rocky Mountain and Pincher Creek constituency of the Women's Institute was held here on Thursday, August 9. Around fifty women were present. Everything went off fine and a good deal of good is the result. The flower show, which was held as a new feature in connection with the conference, proved an inspiration and encouraged many of the women to grow more and better flowers and to make their homes the attractions of the neighborhood. Mr. Cooper proved an efficient judge in this contest, and, after reading the names of the winners, gave an encouraging talk along this line of work. Mrs. Hamilton, the very capable chairman, gave a good report of her work while serving in this office. Mrs. F. C. Alcock, the district director, brought many helpful hints and a wide source of information in the address she delivered so ably. Mrs. Lynch-Staunton gave an address on "Immigration," pointing out many ways in which the new comers could be helped. She stressed the welcoming of immigrants in our midst, etc. Mrs. Murphy, in an address, pointed the way to make Alberta a land of beautiful homes by encouraging and promoting the culture of flowers, shrubs and trees. She contended that it is hard to place an estimate of the value of this work around the home and that a happy and contented population would be the result of such a movement. Pressure was also brought to bear on the many other phases of agricultural pursuits. Reports of the year's work from each branch were read by the constituency representatives, while the address of welcome was given by Mrs. Morrison. The community singing was in charge of Mrs. Grove. Piano solos were played by Mrs. Grove and Mrs. Eddy. The conference was concluded with the election of officers, with Mrs. Lynch-Staunton as constituency convenor. All through the conference, encouragement seemed to echo from everything that was done or said.

Jack Fisher and wife registered at the Cosmopolitan hotel last night.

N. H. Murray, former manager of the Greenhill hotel here, is now manager of the Mount Royal hotel at Banff.

Rev. W. T. Young, pastor of Cushing Memorial church, Calgary, is visiting friends in town, accompanied by his son and daughter, Anglin and Olive. They will be joined here in a few days by Mrs. Young, who is returning from a holiday visit to the coast.

A severe frost hit this district on Monday night, and Tuesday morning ice one-eighth of an inch in thickness was found on small pools. Some garden truck suffered as a result, and we learnt that wheat and oat heads, as well as potato stalks in the foothills country, were nipped.

GOING UP

There's only one conclusion
IT MUST BE GOOD

THE FINE CAR OF LOW PRICE

WHEN a car wins success as quickly as this new Oldsmobile, there is only one conclusion—it must be good!

And the facts confirm this judgment.

Its magnificent new bodies by Fisher reveal the surpassing beauty and craftsmanship for which Fisher is world-famous.

Its great 55 h.p. engine provides high-compression performance without special fuels.

Its silenced chassis embodies every principle of fine-car design. Its complete equipment shows exceptional concern with owner satisfaction.

Four Lovejoy hydraulic shock absorbers, easy-acting positive four-wheel brakes, radiator shutters, bumpers front and rear, gasoline gauge and temperature gauge on the dash—in fact everything that contributes to comfort, convenience and easy riding—are included in its low price.

So the evidence rolls up—until your own good judgment tells you . . .

"I must see this Oldsmobile. I must drive it myself. There's no denying, it must be good!"

Canada To The Fore

The breaking of records by Canada is becoming a commonplace. It is indeed an oft year when, in some branch of human activity and endeavor, this young Dominion does not attract world attention to itself by some new and startling achievement.

Prior to the war, Canada was hardly known, even as a name, to the vast majority of the peoples of Europe, and those who recognized the name had but slight knowledge of the country. To most of the world, Canada was one of the colonies which Britain had scattered here and there over the face of the globe, but which was of little value and of still less importance in world affairs.

In the war, Canada made a name for itself, and other nations were suddenly made to realize that there had arisen in the western hemisphere a nation which already was helping to write history in large and impressive characters and was destined to have a profound effect upon international relations, political and economic. Canada's war effort served, perhaps as nothing of a less spectacular nature could have done, to turn the attention of the people of the United States northward, and to awaken them to the fact that the whole of North America was not to be found within the confines of the republic; that, on the contrary, a second American power was rapidly developing at their very doors.

Since the war the reality of this fact has year by year been emphasized. Long the world's greatest exporter of wheat, the United States has seen Canada pass it and secure that title by a wide margin. Within the past year or two, the United States has been forced to also relinquish to Canada the distinction of being the world's largest manufacturer of paper. Steadily, year by year, Canada has been passing other countries in the production of gold and is now within measurable distance of overtaking the United States and assuming second place to South Africa.

Contributing a volume of only minor importance to the total trade and commerce of the world, a bare generation ago, Canada is now one of the world's greatest traders, a factor to be reckoned with in all the markets of the world. Before the war, dependent upon the money markets of Great Britain and the United States to finance its many undertakings, Canadians today are able not only to finance their own country, but to an ever increasing extent are financing huge undertakings in other countries, while at the same time rapidly buying back into full Canadian control many large corporations of this country which in years of our financial immaturity were financed and controlled by British and United States capitalists.

The war, and Canada's significant participation therein, also had the effect of raising the international status of the Dominion, giving it not only a status of equality with Great Britain within the Empire, but the rank of a nation in the council of nations. The refusal of the United States to join the League of Nations undoubtedly had the effect of the more directly focusing attention upon the North American nation which did join, and placing Canada in the forefront in the League membership.

And since destiny thus called upon Canada to play its part in the international arena, this Dominion assumed the responsibility with dignity and real effectiveness. Its place around the council board at Geneva has been no minor or insignificant one. Rather, Canada has yielded an influence possibly out of proportion to its present population, but in keeping with the growing importance which other nations now attach to this Dominion.

Having thus moved out into the great international arena, Canada this year decided to be worthily represented at the Olympiad, the great meeting place of the athletes of the world. Despite its small and widely scattered population, this young Dominion dared to try conclusions with the much more numerous representatives of other countries in the field of sport and athletic skill and endurance. And again Canada surprised the world. The sons and daughters of the Dominion carried the flag of Canada to victory time and time again, winning many of the premier events. A Canadian school boy, Percy Williams, of Vancouver, achieved the double victory of winning the 100 metres and the 200 metres race, regarded as classics of the great meet. Ethel Catherwood, a Saskatchewan girl, won the high jump and in doing so established a new world's record. A quartette of Toronto girls also broke the world's record in winning the 400 metres relay race. Considering the number of events in which the Canadians participated, no other country in the world approached their record.

Canada's future is assured when it can produce virile and courageous young men and women of the stamp of its representatives in the Olympic games, and in the hands of such youth its position as a great agricultural, mining and manufacturing country, as a leader in world finance, and as an arbiter in international relations, is assured. Canada is coming into that proud position which Nature through her bountiful endowments intended it should occupy, and if the Canadian people continue to regard each new achievement as an incentive to still greater effort and enterprise, another generation will see their Dominion occupying a world position second to none.

National Radio Chain

Broadcasting Companies To Improve
Quality Of Radio Programs

A national chain broadcast organization, divided into two sections, will commence operation about September 1. It was announced in Toronto, by H. W. Ashcroft, who has been appointed manager of the newly formed Trans-Canada Broadcast Company.

Mr. Ashcroft said the organization of the company was the supreme of a suggestion by P. J. A. Cardin, minister of marine and fisheries, that an effort be made by Canadian broadcasting companies to improve the

quality of domestic radio programs. Key stations of the new organization will be located in Winnipeg and Toronto.

Stations in Montreal, Ottawa, Kingston, Hamilton, London and Quebec, will be linked up with the eastern section and stations in Saskatoon, Regina, Edmonton, Lethbridge and Vancouver with the western section.

Russia and Peace Pact

Foreign Minister Of Soviet Republic Refers To Failure Of U.S. To Sign Peace Pact

George Tchitcherine, foreign minister of the Soviet Republic, issued a lengthy statement to the newspapers hinting at the necessity of the Soviet being one of the original participants in the Secretary of State Kellogg's anti-war treaty.

Tchitcherine said the United States' failure to invite the Soviet to sign the pact indicates "a desire to make the pact an instrument of isolation and struggle against the Soviet." The statement asserted that the pact was incapable of preventing war and that it did not provide for disarmament.

Will Need Trained Voices

Talking Movies Will Have To Be Pleasing To Audience

The "talking movie" is just now being much talked about. Producers think it will greatly increase attendance on the pictures. That may be so. But it won't unless movie actors and actresses learn to speak as well as to "register emotion."

A voice has as much personality as a face, perhaps more. As long as it is not allowed to interfere with the face, all goes well; but when the face on the screen is fascinating, and the voice unattractive and feeble, the contrast makes the audience either uncomfortable or amused. Neither state of mind is good for the box office.

Imperial Oil Development

Spending Million Dollars In Improvements To Regina Plant

When two new storage tanks to be built by the Imperial Oil Company for the plant at Regina are completed, the company will have spent something very close to \$1,000,000 in improvements within 12 months.

Last year the company spent \$750,000 in plant equipment. This year a road oil making plant has just been completed at a cost of \$50,000. The two new storage tanks, both of them 120 feet wide, every way by 42 feet high, will cost something like \$150,000.

GIRLS AND WOMEN NEED RICH BLOOD

This Lady Found Dr. Williams' Pink Pills A Friend Indeed

Just because she is a woman there are times when every woman needs help and strength in the form of blood-building tonic.

To thousands of girls and women Dr. Williams' Pink Pills have proved a blessing because they enrich the blood, give strength and restore tone to the aching nerves. The anemic girl who is languid and pale; the wife whose back feels like breaking; the mother whose health fails as she reaches middle age—for all such sufferers Dr. Williams' Pink Pills are invaluable because ill-health in girls and women is usually caused by poor blood or insufficient food. These pills have proved a blessing to thousands of others, why not you? At various stages of this Mrs. G. R. Lake, Walton, N.S., has proved the value of Dr. Williams' Pink Pills. She says:—"I first used these pills when a young girl for it is during the teen age when nature calls upon every bit of the reserve strength we have, that we need their rejuvenating help. It was then I found Dr. Williams' Pink Pills a friend indeed. And again, now that the girlhood stage is past and I am a mother of four children, subject to all the cares and worries of the home, Dr. Williams' Pink Pills is the only tonic I take to keep up my health and strength, and they have never failed. Should an ailing girl or weary mother, due to my advice try these pills, I know they will find them as equally good as I have done."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

A FRIEND OF THE PRESS

F. E. TRAUTMAN
Press Representative, Canadian Pacific Railway

Newspaper editors and proprietors from the Great Lakes to the Pacific Coast, comprise quite a large fraternity, and to know each and every one individually means a fairly large acquaintanceship. Mr. F. E. Trautman, C.P.R. Press Representative, will possibly tell you that, he has more than a nodding acquaintance with all the old-timers and most of the men who have more recently entered the newspaper field in Western Canada. Quite a few years have passed since Mr. Trautman quit the editorial chair of the Fort William Times-Journal, to enter the service of the Canadian Pacific Railway in his present capacity. During the intervening time he has cultivated and held the friendship of the newspaper men throughout Western Canada, in particular and Eastern Canada as well. Mr. Trautman's outstanding characteristic is his geniality, and the whole-hearted interest he has taken in the welfare of the press is proverbial.

He has been ever present at annual gatherings of the Manitoba, Saskatchewan, and Alberta weekly newspaper associations, and has contributed in his own way, and in a large measure to the success of these conventions.

Miller's Worm Powders, being in demand everywhere, can be got at any chemist's or drug shop, at very small cost. They are a reliable remedy for worm troubles and can be relied upon to expel worms from the system and abate the sufferings that worms cause. There are many mothers that rejoice that they found available so effective a remedy for the relief of their children.

Lasting!

It takes skill to build things to endure. Anyone can build a battery—but only Eveready can make a Hot-Shot!

30 years of experience have taught Eveready how to put the longest life into batteries for farm ignition. From the current-making materials to the waterproof steel case, every feature of these famous power plants is rigidly tested by highly trained chemists, engineers and battery builders.

Each battery bearing the name Eveready bears a full guarantee of satisfaction. Remember, if it's not an Eveready, it's not a Hot-Shot.

SEES NO SIGNS OF DECADENCE IN BRITISH EMPIRE

London, Eng.—"I am going back better pleased than ever that I am a British citizen," declared Premier G. H. D. Ferguson, of Ontario, to the Canadian Press, before his departure for Canada.

Premier Ferguson has been in Britain and Europe studying migration possibilities, educational systems and agriculture since early in June.

"The man is a fool who says the old country is decadent," Premier Ferguson said.

"Like every other country in the war, England lost a generation of the brightest and most promising men who were on the threshold of business or public life. The still younger group who were then below military age are now coming on. The next ten years ought to be the most striking in the whole history of Empire development."

The premier said he found conditions in Scotland and Ireland greatly improved.

Speaking of agriculture in Britain, Premier Ferguson said that an all-round good crop meant ultimate prosperity.

"I can see a distinct advance everywhere in interest in overseas," the premier declared. "The pressure of the unemployment problem will bring of itself a greater consolidation of imperial sentiment and imperial forces generally."

Ontario Wheat Pool

Meets With Good Success After One Year's Operation

Chatham, Ont.—In one year of operation the Ontario Grain Pool has proven an outstanding success, and, according to present indications, greater things will be achieved in the next year. The farmers have been educated to realize the benefits of co-operative marketing, and they are getting solidly behind the pool movement in Ontario. These facts were brought out at a meeting here, when the pool's affairs, past and present, were discussed.

The speakers were Colin H. Bunn, Winnipeg, president of the Manitoba Wheat Pool, and H. A. Gilroy, Alton, president of the United Farmers of Ontario Co-operative Company. David L. McCreary, Wallaceburg, Kent County representative on the Ontario pool directorate, acted as chairman, and at the close of the morning meeting was unanimously re-elected to the governing board of the pool.

Mr. Gilroy told of the remarkable progress made by the pool movement in Ontario in a year, during which time hundreds of five-year contracts had been signed. He was assured by observation throughout the grain-growing areas that the growers were becoming convinced of the soundness of co-operative marketing and would join the pool in greater numbers during the next twelve months.

Italian Submarine Disaster

Twenty-Seven Of Crew Perish In The Tragedy

Rome.—Poisoned by acid fumes or drowned in the first rush of water, the crew of the Italian submarine P-14, sunk in a collision in the upper Adriatic, died to a man at their posts apparently with fortitude and resignation.

The stricken submarine was raised to the surface after 34 hours of desperate labor by divers who worked hour after hour to attach an air-pipe to the sunken vessel and to fasten steel cables in order that she might be hauled to the surface.

Twenty-seven perished in the tragedy. First reports received by the naval authorities indicated that there were 31 men aboard, but a check of the bodies today revealed that four of the crew had retained ashore for reasons which have not yet been ascertained. Included in the victims were two officers, Captain Well and Commander Fasulo.

Captain Well and Commander Fasulo were both at their posts of command in the conning-tower while the remaining members of the crew were all found dead at their stations. There were no visible signs of panic aboard the boat.

Pilgrims At Ypres

Impressive Ceremony Is Held In Which 11,000 British Veterans Participated

Ypres, Belgium.—Eleven thousand British veterans of the Great War, including 3,000 women who served in various capacities during those four terrible years, gathered about Menin Gate on Aug. 8th for a solemn ceremony in commemoration of their comrades who fell in the desperately held Ypres salient.

Among them stood the Prince of Wales, Lady Haig, the widow of Britain's victorious commander; Admiral Jellicoe, president of the British Legion, who headed Britain's naval forces in the great struggle, and other commanders who bore a share in the battle of Ypres.

The pilgrims had come, some marching along the familiar roads, others by train, their numbers swelled by thousands who had gathered to witness the ceremony until it was estimated that nearly 20,000 men, women and children joined in the opening hymn, "O Valiant Hearts."

The service, in which the huge congregation participated, was beautifully simple and supremely impressive.

Grave fears are felt for the great citrus orchards, laden with fruit, in the immediate path of the storm.

Meanwhile reports trickling in from the country between the new storm front and the Atlantic told of half a dozen towns and communities visited by damage from the storm.

Co-Operative Movement

Wholesale Society Expects To Establish 200 Stores In Saskatchewan
Saskatoon, Sask.—Referring to the recent announcement of the formation of the Saskatchewan Wholesale Society, which is being sponsored by the United Farmers of Canada to sell goods to consumers at as near cost as possible, W. Moss Thrasher, secretary, said that about 200 stores would be established within the first year.

Preference will be given to districts known to be favorable towards co-operative effort. Within the same period he hopes to see between 700 and 800 trading units founded so that the province will be fairly well covered.

To Identify British Products

London.—"Empire marketing begins at home," inscribed on a Union Jack, is a feature of the national park designed for the furtherance of a government scheme for ensuring the identification of British products.

Bombs Thrown By Bandits

St. Paul, Minn.—Blinded by tear gas bombs thrown by bandits the driver and five guards of the Swedish Detective Bureau armored money car were robbed of \$20,000 in currency here recently.

New Telephone Service

All-Canadian Phone Service Between Winnipeg and East Is Inaugurated

Winnipeg.—Inaugurating the all-Canadian telephone service between Winnipeg, Toronto and Montreal via Port Arthur and Fort William, officials of the Bell Telephone Company, the Canadian Pacific Railway and the Manitoba Government, recently spoke to one another across 1,600 miles of copper wire.

The new line between Winnipeg and Montreal is approximately 1,600 miles, and is erected on Canadian Pacific telegraph pole line from Manitoba to Sudbury, via Port Arthur and Fort William. From Sudbury it connects to all eastern points by the Bell Telephone Company's lines. The weight of copper of the new line amounts to 350 tons. There are nine repeater stations to amplify the conversations. This is the third stage in the all-Canadian telephone route the first being Winnipeg to Alberta in 1922, the second Winnipeg to the head of the Lakes in 1924.

The fourth stage is now being completed across the Rockies, the Canadian Pacific right-of-way being largely used, construction now nearing completion for the coast-to-coast telephone service entirely within the Dominion.

GREATEST CROP IN HISTORY IS THE PREDICTION

Winnipeg.—Western Canada is on the threshold of its 1928 harvesting season, with present prospects pointing to the production of the greatest crop in the history of the country. Throughout the prairie provinces most encouraging progress is being made by all grains, and in districts where cutting has started, estimates show wheat yields have ranged from 25 to 40 bushels to the acre.

Recent reports from authorities making their annual field inspections have revealed the crops in varying stages with the most advanced having completed cutting, and in one instance threshed, while in the more backward areas another two weeks of favorable weather will be required to bring the crop to maturity.

The general condition, however, fits the 1928 crop slightly ahead of conditions at this date last year, and farmers are expected to be humming over the western grain fields within a few days.

Cutting of barley, rye and oats, has been underway in some sections for the past week, with these crops yielding slightly above the ten-year average.

While no official estimates have yet been made of this year's wheat crop, the consensus of opinion of authorities who have travelled through the western provinces during the past week, is that final figures will show a crop of approximately 450,000,000 bushels.

The feature of the growing crop to date is its freedom from rust damage or other pest infection. Hail has taken a considerable toll, particularly in Saskatchewan, but the increased acreage seeded this spring is expected to offset this loss.

The first harvesters' excursion train is expected to reach Winnipeg from Eastern Canada this week. The railway companies also are moving thousands of grain cars to the various centres of movement.

Yet another indication of preparedness is the arrival of Leslie Boyd, chairman of the Board of Grain Commissioners, to make arrangements for the hearings on grain rates for the interior elevators. These rates will be fixed by the board on the strength of the evidence submitted, and made public by Sept. 1.

Air Express Inaugurated

Before the propeller stops whirling the Canadian Pacific Express truck is on its way to the city with parcels for delivery. A new air route gives bi-weekly express service in each direction between Toronto, Ottawa, Montreal and the steamship of Rimouski. Two days is gained over regular express schedule, western consignments being transferred to the Vancouver Express at Toronto.

COMES TO AMERICA

Hon. Mrs. Loel Guinness, one of the most beautiful of English aristocrats, is to take up residence in Pittsburgh, Pa., with her husband, who has been placed in charge of his father's business in that city. Before her marriage, a year ago, Mrs. Guinness was Hon. Joan Yarde-Bulmer, daughter of Lord and Lady Churchill.

British Harvest Help

Satisfactory Arrangements Completed With The British Government

Ottawa.—Satisfactory arrangements have been completed with the British Government for the movement of harvest help from the British Isles to the wheat fields of Western Canada, according to a statement issued by the department of immigration and colonization.

This movement, which will begin at once, will be under the direction of the Old Country and the Dominion Canadian National Railways and the Canadian Pacific Railway.

The two railways will be responsible for placing the men in harvest employment on their arrival from the Old Country and the Dominion Government will co-operate with the railways in placing these harvesters in winter farm employment in Canada after the rush of the harvest work is over.

Satisfactory arrangements have been made for the return fare of those harvesters for whom winter farm employment cannot be found.

English School Girls Arrive

Will Make Educational Tour Of Canada From Coast To Coast

Montreal.—Twenty-five English school girls have arrived in Canada to begin a two-month trip arranged to begin at a woman's trip arranged to begin under the auspices of the Imperial Daughters of the Empire.

Their itinerary, which takes them to the maritime provinces, to Northern Ontario and Central Canada, the Rockies and the West, has been planned to give the girls a taste of the many phases of Canadian life. The party will return home on October 11.

Long Trek For Pension

St. John, N.B.—"Disabled soldier on his way to Ottawa to fight for pension that was taken away," is the inscription on a placard which Joseph McIntosh, a returned soldier, wore across his shoulders as he left the city on a long trek to the federal capital to seek renewal of his pension of \$110.75 a month.

French Airman Killed

Paris.—Captain Labbe and three assistants were killed when their plane crashed at Bourges near the end of a 24-hour flight. The plane was burned. The charred bodies of the men were recovered from the wreckage.

French Plane Crashes

Maurice Drouhin, Noted French Aviator, Is Fatally Injured

Orly, France.—Another attempt to fly from Paris to New York ended in disaster here it had even begun.

The giant tri-motor "Rainbow" crashed on the landing field at Orly aerodrome, killing the mechanic, Lannet, fatally injuring the pilot, Maurice Drouhin, noted French flyer, and injuring two others, Glanoli and Mameel.

The big plane, designed by Rene Cousinet and built entirely of wood, so constructed that all of its essential machinery would be accessible during flight, was a complete wreck, parts of the wings, fuselage and wires being strewn for 1,600 yards along the field.

"The Rainbow" was being put through its final test preparatory to a start across the Atlantic this week when the accident occurred.

It was racing close to the ground at about 125 miles an hour when a few spectators noticed a huge wing wobbling. The engines were cut off then, but the deformation of the wing caused the giant plane to shoot almost perpendicularly into the air to a height of about 450 feet. There it slid to one side, apparently refusing to respond to the controls.

As it reached the ground it tore through a strong wire fence, knocked over iron posts, and crashed against the corner of a hangar, coming to a stop a crumpling wreck on the road bordering the field.

Dies From Wounds

Stefan Raditch, Croatian Leader, Succumbs To Injuries

Vienne.—Stefan Raditch, Croatian peasant parliamentary leader, died recently at Zagreb, capital of Croatia. The city was grief-stricken and troops are everywhere ready to suppress trouble.

Raditch died of wounds received last June 20, in parliament, when a radical deputy, Punica Raditchich, infuriated at frequent interruptions, whipped out his pistol and fired six shots into a group of Croats.

Each shot claimed a victim, two being killed, one of them a nephew of Raditch, and four wounded.

For a time Stefan Raditch's condition improved but he suffered a relapse which finally brought about his death.

Since his assassination Croatia has been in a condition almost of martial law, with troops patrolling its cities' streets to quell possible peasant demonstrations occurring as a result of the episode.

A Message To Women

Miss Isabel Macdonald Does Not Believe In Equality Of Sexes

Toronto.—Miss Isabel Macdonald, when visiting here with her father, Right Hon. J. Ramsay Macdonald, Labor leader, issued a message to the women of Canada. It read:

"Women are coming into public life not to work against men, but to co-operate with them in improving public affairs. I do not believe in equality. Men and women cannot be compared. Women are just as important as men but they are not equal any more than A and B in the alphabet."

EXTENSION OF PREFERENCE IS EXPECTED SOON

Ottawa.—The Citizen says: "A very important regulation vitally affecting British trade with Canada, is scheduled to go into effect this autumn, but just when this will be for the government to decide."

"As a matter of policy it has been agreed to increase from 25 to 50 per cent. the requirement of Empire labor and materials in British importations in order to entitle them to the British preferential tariff, but before this is operative, customs regulations have to be devised and put into effect."

"As the idea originated with Hon. J. A. Robb, his return from abroad next week is awaited before regulations are considered."

"There have long been complaints about goods, very largely manufactured in foreign countries and then sent to Great Britain for the finishing touches and shipped from there as 'Made in England,' this being eligible for the British preferential tariff."

"The new exaction of fifty per cent. Empire labor and materials will not only rectify this, but will have a large influence on the importing trade in Canada."

RAILWAYS MAKE PREPARATIONS TO HANDLE CROP

Montreal.—Canadian railways are completing plans for moving the 44,000 harvesters called from Eastern Canada to help harvest the expected record wheat crop in the West.

The Canadian Pacific started its first excursion from the Quebec district on August 14, and one from New Brunswick, August 10. The fare from stations in Ontario and Quebec is to be \$15, and from points in New Brunswick, St. John, and west, \$20 to Winnipeg, plus half a cent a mile beyond all points in Manitoba, Saskatchewan and Alberta, to and including Edmonton, Calgary and Macleod.

The harvesters are all destined to Winnipeg, where special arrangements have been made for their speedy distribution to points in the West where they are most needed.

Return fares are at \$20 from Winnipeg to points in Ontario and Quebec, and \$25 to New Brunswick, plus half-cent-a-mile-rate to Winnipeg from points in the West.

The Canadian National will run its harvesters excursions from August 9 to August 31. Special provision will be made for the care of families travelling on harvest excursions over the Canadian National System.

Preparations are practically completed by the railways for movements of the new harvest. The Canadian Pacific has set aside more than 40,000 cars for the movement, a much greater number than in any previous year. Seventy-nine great engines have been loaned by Eastern lines, 13 of these new locomotives being of the Mikado type with both superheater and feed water attachment.

Bins are clearing rapidly at the head of the Lakes. Grain carriers across the Lakes are moving at an average of 1,240,000 bushels a day.

Rich Gold Strike

Gold and Platinum Found In Northern Saskatchewan

Edmonton, Alberta.—Said to be incredibly rich in gold and platinum, a "strike" has been made along the north shore of Lake Athabasca, to the east of Black Bay, in the province of Saskatchewan, according to a statement made by Ed. Meyers, Fox Chipewyan trader, who is now in the city.

Jack Hersey, well-known sportsman, made the strike, following sporadic search for many years along the north shore of the lake, which has long been rumored to be rich in gold-bearing quartz.

Tests made at the University here disclose that some of the ore carries a content of precious minerals as high as 84 per cent, although this has not yet been confirmed. According to another northerner, Charles L'Argent, who makes one of the syndicate which is outfitting to head for the scene of the new find, one of the assays gave average returns of \$40 per ton of some of the quartz shipped south from the scene of the find.

Leaves Big Fortune

London, Eng.—Capt. Alfred Loewenstein, the Belgian capitalist, who met his death by falling or jumping from an airplane over the English Channel the night of July 4, lost \$60,000,000 in the three weeks preceding his death, according to the Evening News. This newspaper said it learns that Loewenstein left \$40,000,000 to be equally divided between his wife and son.

Hickman Sentenced

Los Angeles.—William E. Hickman was sentenced to be hung at San Quentin penitentiary on October 19 next, for the slaying of Marian Parker. Judge Douglas Edmonds over-ruled nine defence objections before setting the second hanging date for the youthful kid-napper who slew the 12-year-old school girl here last December.

May Defeat Old Age Pensions

Toronto, Ont.—Old age pensions may be deferred in Ontario for another year. Indications are that the survey ordered by Premier Ferguson will not be completed for the next session of the legislature, and so the bill may come up on the eve of the next election.

"WINGS"

A Paramount Picture

"WINGS" is an entirely different picture. Its author utilized the aeroplane, this modern invention, to build up his dramatic situation, and, indeed, he has succeeded. It is difficult for one to describe the thrills one feels in the sight of one of the planes attacking another plane; of one group of planes attacking another group; and later, seeing more planes downed, and falling to the earth in flames. They are magnificent sights, in fact so magnificent, so impressive, so thrilling, that it is doubtful if one could feel more excited even if one were to watch actual aeroplane battles.

Added to these magnificent scenes, the special sound effects makes the picture so realistic that one almost thinks they are taking part in the actual battle.

Special musical score will be used for this picture, under the personal supervision of Mr. George Beattie, of New York.
